Dear Find Tutor Manager,

With this letter would like to express my interest in filling an open vacancy at Find Tutor, in particular, the position of remote tutoring since I'm a computer literate and hence master the basic tools needed for this position.

Am currently studying Computer Engineering at The University of Buea. During these studies, students are readied to do tutoring. The emphasis lies on knowledge sharing and communication skills in applied sciences as during the educational process, the courses of Use of English, Functional French Are discoursed.

I would describe myself as someone who is Problems solving Oriented and likes teaching as it has always been the case that I will organise extra classes for my classmates and juniors whether remotely or in person are discussed. I would like to use my skills with Find Tutor, in order to make optimal use of my acquired knowledge. . The components that were discussed during my studies closely match the skills required for this position.
